EXPERIENCE

Oasis Infobyte, remote *web development and design*

October 2024 - December 2024

During my internship at Oasis Infobyte, I worked on a range of web development projects, which strengthened my coding skills and understanding of various front-end and back-end concepts.

Emezak limited— front-end development

November 2024 - April 2025

During my internship at Emezak Limited, I enhanced my web development skills, learned to structure projects efficiently, and refined my front-end design approach.

EDUCATION

PENTECOST University, Accra, Ghana — *Diploma in computing (with Business Management*)

Janvier 2021 - October 2023

CODETRAIN Africa, Accra, Ghana

May 2024 - May 2026

PROJECTS

Calculator App

I developed a fully functional calculator from scratch using HTML, CSS, and JavaScript, focusing on responsive design, clean UI and theme toggle.

React form and user list
Built an interactive form and user management list using React.Implemented dynamic state management and form validation.

Emezak Educational Consulting Website
Built and maintained Emezak's website, enhancing UX for international student advising.
