PROFESSIONAL SUMMARY

Results-driven Frontend Developer with over 4 years of experience building responsive, user-friendly websites using HTML, CSS, JavaScript, React, and Tailwind CSS. Proficient in backend technologies like Node.js and MongoDB. Passionate about clean design, efficient code, and collaborating within cross-functional teams.

EDUCATION

Codetrain Africa, Accra, Ghana
Software Engineering | May 2024 - May 2026

Pentecost University, Accra, Ghana
Diploma in Computing (with Business Management) | May 2024 - May 2026

EXPERIENCE

Oasis Infobyte   **Remote**
Web developer and designer intern   October 2024 - December 2024

- Delivered 4 full-scale web applications using HTML, CSS, and JavaScript, including a secure login system.
- Developed intuitive UI interactions and optimized frontend performance.

Emezak Limited   **Onsite, Accra, Ghana**
Front-end developer intern   November 2024 - April 2025

- Completed 6 frontend projects using React, enhancing project architecture and design implementation.
- Integrated Google Maps API for location-based services.

PROJECTS

Full-Stack To-Do List App (In Progress)

- Integrated sign-up, login, and logout with JWT and cookies.
- Connected frontend (React + Redux Toolkit) to a secure Express backend
- Added error handling for duplicate emails and built a Forgot Password UI.

E-commerce Shopping Cart with Redux

- Implemented a dynamic shopping cart using React and Redux to manage state efficiently across the application.
- Enabled adding, removing, and updating items while maintaining accurate cart totals.

Banking System Authentication Service (REST API)

- Developed a robust authentication service for a banking system, implementing secure registration using JWT.
- Created RESTful API endpoints for account creation, user authentication, and token validation.
